SUMMARY

As a Full-Stack Web Developer with over 3 years of experience in technologies like Java, Node.js, React, and Typescript, I am seeking a challenging role in a dynamic organization. I have a strong understanding of HTML, CSS with SCSS, and JavaScript, and experience with JavaScript component libraries. Additionally, I have experience with Typescript and responsive user interfaces for a wide range of devices and browsers. I have worked with Git and other version control systems, and I am aware of SEO best practices and accessibility in all aspects of my work. I have a strong understanding of web performance in complex user interfaces and the ability to interact with UX, designers, and server-side developers. I hold a Bachelor's degree in Information Technology

PERSONAL SKILLS

- Proficient in MERN stack (MongoDB, Express, React, Node.js) , Ruby on Rails and java
- Extensive experience in Typescript, GraphQL, React.js, and Redux.
- Strong knowledge of HTML5, CSS3, SQL, JavaScript, and SaaS.
- Familiarity with Kotlin and Jira Board for project collaborations.
- Proficient in Agile software methodology.
- Skilled in version control systems like Git.
- Effective communication and collaboration skills.

PROJECT SUMMARY

BUK-A-MEAL –A web app for ordering food from local restaurants

Frontend GitHub link: <https://github.com/Alexkimathi/buk-a-meal-frontend>

Backend GitHub link: <https://github.com/Alexkimathi/buk-a-meal-backend>

NOTE-APP

A notes app with CRUD operations to practice creating API endpoints with Node.js

Used Typescript for the frontend
